

# Avicare Concentrate

(02) 6933 0400  
sales@vetafarm.com.au  
www.vetafarm.com.au

**DATA SHEET**

Avicare kills bacteria, viruses and fungi on contact and is effective in up to 20% organic matter, making it perfect for 'dirty' situations. ("Hospital B" standards of disinfection).

- ★ General purpose cage cleaner and disinfectant.
- ★ Gentle on birds, tough on germs.

Avicare can be used for disinfection of cages, perches, toys, food and water containers, hand rearing equipment and also suitable for use in animal hospital areas, hospital cages, brooders and incubators.

Hospital B Grade disinfectant. Instantly kills bacteria, viruses and fungi on contact. Is effective in up to 20% organic matter – perfect for disinfection in dirty situations.

**Directions:** Dilute with water 1:50 prior to use. (For example 20mL/L).

**Recommended for:** Completely safe for all birds, environments and equipment.

**Active Constituents:**

50g/L Benzalkonium Chloride, 25g/L Sulfamic Acid

**Size:** Available in 100mL, 500mL, 5L & 25L.

**Item#** 100mL - 00012, 500mL - 00013, 5L - 00015, 25L - 00122

**Expiry:** 3 years from date of manufacture.
