

Ideal daily supplement for birds, particularly for breeding.

- ★ Super calcium.
- ★ Vitamins.
- ★ Minerals.

D Nutrical is used to fortify any food source with calcium, vitamins and minerals. Calcium demand almost doubles during the breeding season and inadequate intake can lead to health problems such as bone weakness or deformities.

Contains vitamins, minerals and calcium. Supports birds on seed diets that lack in key nutrients. Particularly useful for calcium supplementation in breeding birds and growing chicks. Triple calcium sources promote high quality eggshell production, strong bone formation in young birds and general good health. Easily dusted onto food sources.

Used and recommended by Birds International (Philippines). Ideal supplement to fortify homemade hand rearing formulas.

Directions: Ideal as a maintenance supplement or for use during breeding.

Add 20g of D Nutrical per kg of food (1 oz per 3 lb) to boost active calcium levels.

Recommended for: All birds on seed diets, particularly during the breeding season.

Can be used with: Fresh fruit and Vegetables can be dusted with D'Nutrical and added to bird diets.

Active Constituents:

Each gram contains: 310mg Calcium (31%).

Also contains Vitamins: A, B₁, B₂, B₃, B₅, B₆, B₉, B₁₂, C, D₃, and E
